## Marset Atlas Ceiling

Inspired by the common bulb and envisioned as a minimal spotlight, Joan Gaspar's Atlas follows the bulb's outline for a raw and industrial look. Starting from its most basic component, the raw bulb is encased within a transparent suit that also gives the lamp a touch of style with a light and bright look.

Marset Atlas is a directional spotlight suitable for installation on ceiling and walls. Producing a good amount of light for task, Atlas would be perfect for kitchens, hallways and spaces in need of a little more focused light.

Designer: Joan Gaspar
