## PRODUCT DESCRIPTION

**Designer:** Terzani Lab

### Terzani Mizu Multi Light Suspension

With the Terzani Mizu Multi-Light Suspension, the opportunities are endless. Boasting the classic crystal glass diffusers seen throughout the range and an organic aesthetic these luminaires can offer you 3, 5, 7 or 15 light sources depending on your space. Inspired by the tranquil light refractions created by water, Mizu is a customizable suspension that is sure to make a statement in residential and commercial interiors.

Like water droplets no two Mizu are alike, each diffuser is handcrafted and provides a unique silhouette using only the clearest crystal (24% lead). The result is a poetic lighting solution that not only adds a touch of glamour to your environment but also provides your space with a cosy ambient illumination that can be easily dimmed to suit your needs. The glass of the Terzani Mizu is available in a range of colours including clear, silver, gold, cognac or champagne. The drop heights can also be easily customised for more unique spaces.
