PRODUCT DESCRIPTION

Designer: Wilmotte & Industries

Artemide Architectural Mouette LED Suspension

The Artemide Architectural Mouette LED Suspension consolidates the asymmetric and symmetric variants of this family into a single configurable product. Designed by Wilmotte & Industries, Mouette uses a wing like profile to create a broad, diffused volume of light that reads as part of the wider ceiling composition. Three geometries, including the larger Symmetric 2500 option, make it straightforward to scale the luminaire to different room sizes and ceiling heights.

Each fitting features a rotationally moulded white opaline polypropylene diffuser manufactured as a single piece, which ensures an even, shadow free emission across the full length of the profile. Integrated LED modules in 3000K provide efficient general lighting, with system wattages ranging from 68W to 135W and delivered lumen outputs from 6107 lm to 12,215 lm depending on geometry. Suspensions are available with 190cm or 590cm cable drops and a choice of fixed output or DALI dimmable control gear to suit the project’s control strategy.

Mouette is intended for interior architectural environments and is particularly suited to hospitality, retail, office and cultural projects where you require strong functional lighting with a calm, graphic presence. Luminaires can be installed individually over reception desks or large tables, or combined in series to define circulation routes, shared workspaces and display areas. Our team can assist with luminaire selection, spacing, photometric data and integration into wider lighting schemes.

As the official UK distributor, we can support you with the Artemide configurator and specification. Contact us at artemide@davidvillagelighting.co.uk.

PRODUCT SPECIFICATION

Light Source:
Mouette Asymmetric: 85W, 3000K, 8186 Lumens
Mouette Symmetric 2500: 135W, 3000K, 12215 Lumens
Mouette Symmetric: 68W, 3000K, 6107 Lumens

IP Code: 40

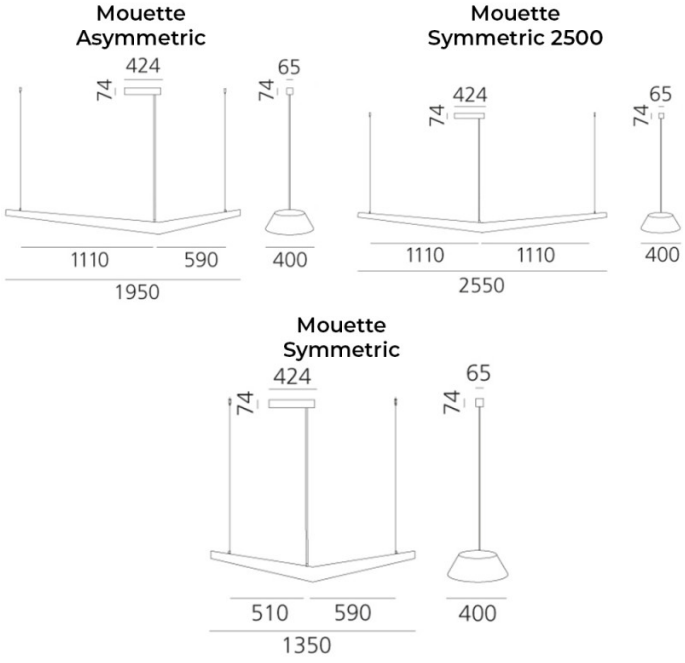

Dimming: Dimmable via Dali dimming systems. Please consult your electrician, additional wiring may be required on site.

Dimensions:
Mouette Asymmetric:
Length: 195cm
Width: 40cm

Mouette Symmetric 2500:
Length: 255cm
Width: 40cm

Mouette Symmetric:
Length: 135cm
Width: 40cm

Cable Length: 190cm or 590cm
