PRODUCT DESCRIPTION

Designer: Piero Lissoni

Flos Tight Light LED Wall Light

The Flos Tight Light LED Wall Light by designer Piero Lissoni is a wonderful example of the designer's style; simple yet stylish. Not only does the Tight Light work well in residential spaces to light hallways and living areas, but it also easily adapts to any office, waiting room, lobby or commercial building, thanks to its simplistic white finish and minimalistic silhouette.

The geometric shape of the Flos Tight Light brings balance to the wall and makes the design pleasing to the eye. The wall lamp provides a direct and indirect light output with two integrated LED light sources, one that shines up and one that shines down. The result is a more even and natural dispersion of light. Tight Light can be displayed independently or in rows and clusters of multiples.
