PRODUCT DESCRIPTION

Designer: Jordi Vilardell

Vibia Slim 0920 LED Pendant

Designed by Jordi Vilardell, the Vibia Slim 0920 LED Pendant is a slender and elegant lighting solution, it produces a direct downlight that illuminates the surface below. Thanks to a built-in diffuser, the light from the Vibia Slim LED Pendant is a warm white glow (2700k) that produces functional and glare-free illumination.

The Vibia Slim Pendant boasts a graceful silhouette, which was the inspiration behind the name, that is dramatic but unobtrusive and is a beautiful addition to both residential and commercial spaces. Available in a range of colours, the Slim Pendant makes a statement when suspended above counters, dining tables, kitchen islands or stairwells. It can be displayed individually or in larger clusters for more open spaces.

The Vibia Slim collection comes non-dimmable as standard. For a dimmable version please contact us for more information and pricing.

This pendant can also be supplied with a colour temperature of 3000K or 4000K upon request.
