PRODUCT DESCRIPTION

Designer: Christophe Pillet

Tripod Floor Lamp by KDLN

The Tripod floor lamp is part of the <u>KDLN Tripod Collection</u> which was designed by Christophe Pillet in 2002. The floor lamp has a classic silhouette, with a tripod stand that holds a large, rounded fabric lampshade. The tripod is made from metal which comes in either a white (with white lampshade) or grey (with moka and ecrù lampshade) painted finish.

The Tripod floor light is available in 3 lovely colours, white, ecrù or moka, and will be a modernistic addition to any interior. The shade diffuses the light source, creating a warming glow that emanates throughout the room. Perfect as an ambient lighting solution, this floor light can be used in many rooms, such as bedrooms, lounges and offices. Create a cosy atmosphere by using a simplistic yet effective lamp that combines metal and fabric in an iconic and stunning way.
