PRODUCT DESCRIPTION

Designer: Christophe Pillet

Tripod Table Lamp by KDLN

Designed by Christophe Pillet in 2002, the Tripod table lamp has a lovely tripod structure which holds a curved fabric lampshade. The tripod stand is made from metal, which is either painted white (with the white shade) or grey (with the ecrù and moka shade). The shade creates a soft glow as the fabric diffuses and conceals the light bulb, resulting in a comfortable and inviting atmosphere.

The iconic design of the Tripod table light makes it versatile and universal, suitable for a wide variety of settings. You can use on tables, desks or side tables to create a cosy ambience and effective glow for the room. Use in offices, bedrooms and many more in homes and professional interiors. Choose from a white, ecrù or moka lampshade to suit your needs and match your design scheme.

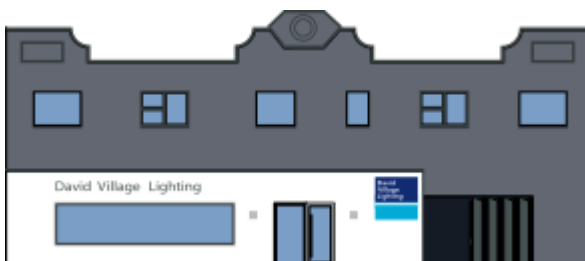

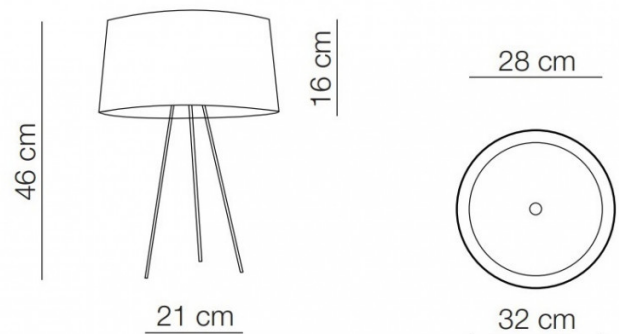

PRODUCT SPECIFICATION

Light Source: 3 x Max 40W E14 (excluded)
