PRODUCT DESCRIPTION

Designer: Hopf & Wortmann

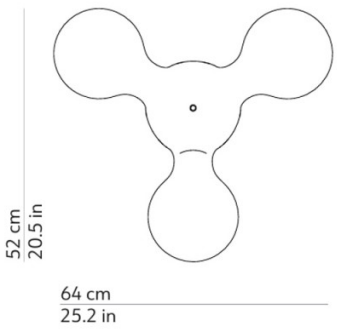

KDLN Atomium Wall / Ceiling Light

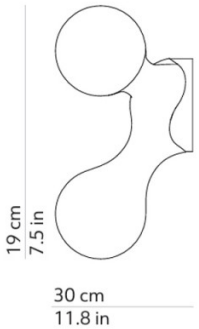

The Atomium Wall / Ceiling Light lies somewhere between science and art. Its form was inspired by the shape of an atom, resulting in a luminaire that is as sculptural off as it is when switched on. The structure is crafted from a rotational-moulded polyethylene diffuser, which houses three light sources fixed on steel coil springs. With the option to mount on a ceiling or wall, the Atomium is suitable for a wide range of interiors in residential and commercial settings alike.

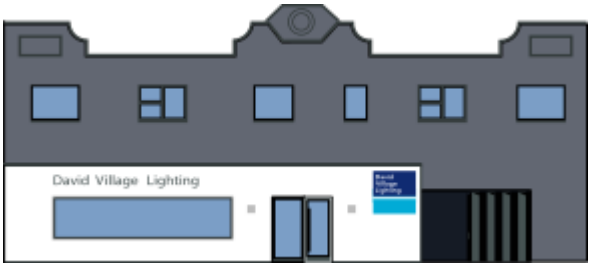

When illuminated, the Atomium Wall / Ceiling Light produces even, ambient lighting, while bathing the surrounding wall in a warm glow. Install individually in the center of a room or arrange in a sequence for a dynamic installation with a strong personality. Display with the **Atomium Pendant** for an eccentric visual design in creative environments.

PRODUCT SPECIFICATION

Light Source:	3 x Max 40W E14 (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Depth: 30cm Height: 52cm Wall Mount: Ø19cm
