PRODUCT DESCRIPTION

Designer: Tham & Videgård

Zero Top LED Pendant

The Zero Top Pendant balances simplicity with sculptural intrigue. Designed by Tham & Videgård, it features a painted metal shade suspended on a discreet wire system, allowing the angle of the shade to be adjusted. This tilt not only adds a visual twist but lets you subtly direct the light where it's most needed.

Fitted with an integrated LED and a matt acrylic diffuser, the Top Pendant provides glare-free illumination in 3000K. It's available in black as standard, with custom colours available on request. Choose from two output levels depending on the room size and intensity required. Perfect for residential dining tables, lounge settings, or contemporary commercial interiors, Top combines function and design-led aesthetics with ease.

Please note, alternative colours and a 4000K option are available for this product. Contact us for pricing and information.
