PRODUCT DESCRIPTION

Designer: Kjellander + Sjöberg

Zero A.01 Outdoor LED Wall Light

The Zero A.01 Outdoor Wall Light LED, designed by Kjellander & Sjöberg, is a striking yet functional fixture crafted for modern exterior spaces. Its robust construction, available in grey, corten, or galvanised metal, ensures longevity in outdoor environments while maintaining a refined aesthetic. The opal acrylic diffuser creates a soft, glare-free illumination, making it ideal for residential entrances, commercial façades, and public spaces requiring high-quality, ambient lighting.

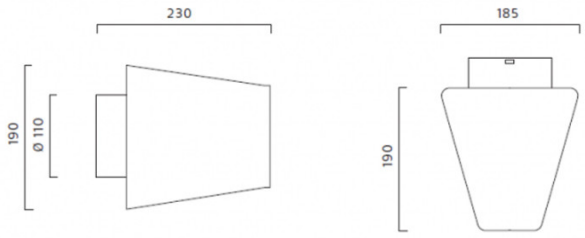

The integrated 10W LED module provides either 747 lumens, with a warm 3000K colour temperature and CRI 80 for optimal visibility and ambiance. The light is easy to install with a terminal-block connection and an optional stainless steel distance-piece for external mains cables. Designed to blend seamlessly into architectural settings, the A.01 wall light is a stylish and practical addition to any outdoor space.
