PRODUCT DESCRIPTION

Designer: Thomas Bernstrand & Mattias Ståhlbom

Zero Foto Ceiling / Wall Light

Designed by Thomas Bernstrand and Mattias Ståhlbom, the Zero Foto Ceiling/Wall Light is inspired by the precision and adjustability of studio photography lighting. This minimal yet functional fixture features an adjustable spotlight, allowing for precise directional lighting, making it an excellent choice for art galleries, office spaces, and modern interiors.

Constructed from painted steel and die-cast aluminium, the Foto wall and ceiling light is available in white and black, with custom colours available on request. The fixture can be surface-mounted or installed on a three-circuit track system, providing flexibility for different lighting needs. With its clean, industrial aesthetic, the Zero Foto light is a subtle yet powerful addition to contemporary spaces.
