PRODUCT DESCRIPTION

Designer: Greta M. Grossman

Grossman Cobra Table Lamp by Gubi

The Cobra Table Lamp, designed in the 1950s by Greta M. Grossman, is an award-winning classic that embodies mid-century modern design. A part of the wider Cobra collection, this table lamp takes its name from the shape of its shade, resembling a cobra's hood. The tubular arm is fully flexible, allowing the shade to rotate 360 degrees for tailored illumination. Whether used as a task light on a work desk or as a soft accent light in living areas, the Cobra Table Lamp adapts beautifully to your needs.

Awarded the Good Design Award in its decade of inception, this lamp remains a symbol of innovation and style, making it a timeless addition to homes and workspaces. Available in a variety of finishes to complement your décor.
