PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Taj by Kartell

Taj is a luminous sculpture, the work of Ferruccio Laviani for Kartell. An ideal piece for your desk at home, office at work and on any other furniture. The design deviates from traditional table lamps, with a simple arch shape, sophisticated like an refined sculpture. The Taj is the new step into contemporary designer lighting.

The Taj table light is as beautiful on as it is when switched off, a strong presence in the room. LED technology compliments the table lamp, by optimising and minimising the light source. A product entirely made with Kartell's unique know-how, to meet the challenges of the modern industry.

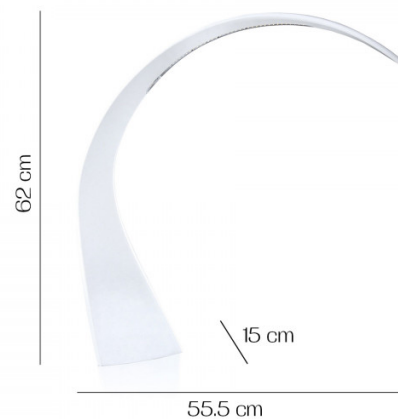

The Taj table lamp is available in either glossy black, glossy white and or crystal. There is also mini version, the [Taj Mini](#).
