PRODUCT DESCRIPTION

Designer: Antoni Arola

Santa & Cole Moaré Suspension Light

Incredibly versatile, the Moare lights can be configured in various combinations. The suspension lights, designed by Antoni Arola, take their name from the Moiré effect; an iridescent illusion of the water. Arola is a distinguished designer whose products are unique and brilliant, from the simplest to the most complicated, and was awarded the Spanish National Design Prize in 2003.

Emulating the Moiré effect, the Moare suspension light has shades hidden one within the other, creating an optical illusion of ambience. A 3m cable allows for installation in high ceiling settings and the included three light bulbs within the inner diffuser offer a warm and diffused light. The suspension lights are available in the following configurations:

MS - small shade within a medium shade
LM- medium shade within a large shade
XL - large shade within an extra large shade
M - medium shade
L - large shade
X - extra large shade

All cylindrical shades are available in a white, red, grey or black finish, allowing you to create endless combinations to suit your interior décor. The Moare lights can be installed in any residential space, above the dining table, kitchen, hallways, or even in small and large commercial spaces.

PRODUCT SPECIFICATION
