PRODUCT DESCRIPTION

Designer: Ilmari Tapiovaara

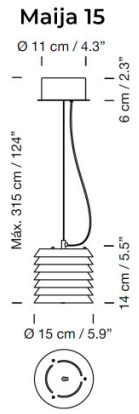

Santa & Cole Maija LED Pendant Light

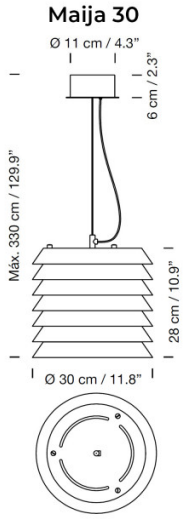

The Maija pendant was designed in 1955 by Ilmari Tapiovaara, a Finnish designer who always looked to nature for inspiration. The Maija design is inspired by the environment in Baltic cities, where street illumination is bare and most light comes from house and shop windows. Tapiovaara evokes this lighting by creating a honeycomb structure made from metal discs that casts a beautiful glowing light.

The Maija pendant lamp is available in a white colour finish and in two sizes, the smaller Maija 15 or the larger Maija 30. The pendant comes with an integrated LED light source and is suitable to be used as an ambient light, whether used alone or in multiple. Match with other lights from the Maija collection for a consistent lighting scheme.
