PRODUCT DESCRIPTION

Designer: Giuseppe Maurizio Scutella

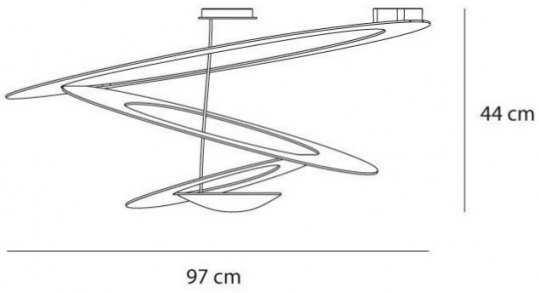

Artemide Pirce Ceiling Light

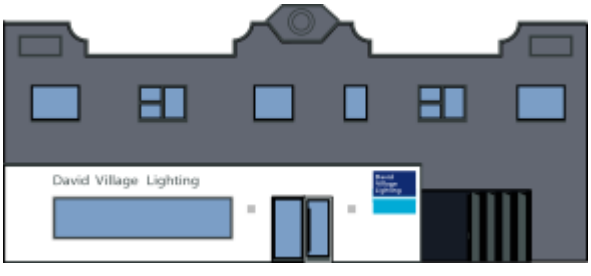

Designed by Giuseppe Maurizio Scutellà, the Pirce Ceiling Light is not only an elegant light source but also an alluring decoration with a strong sense of presence. The ceiling light is comprised of slim aluminium discs that bend and spiral downwards for a sculptural appearance. The elegant silhouette complements any contemporary setting, whether residential or commercial.

When illuminated, the Pirce Ceiling Light casts a captivating play of light and shadows as the twirling frame reflects light for a comfortable, glare-free glow. This indirect lighting creates a comfortable atmosphere that is perfect for kitchens, dining rooms, or living areas. Alternatively, install the Pirce Ceiling Light in multiples, lining the length of a long surface or hallway. For a more eco-friendly and energy-efficient lighting solution, a **Pirce LED Ceiling Light** is available, which features an integrated LED.
