PRODUCT DESCRIPTION

Designer: Verner Panton

Verpan VP Globe Opal Glass Pendant

The Verpan VP Globe Opal Glass Pendant was originally designed by Verner Panton in 1969. Set within a transparent acrylic outer sphere, five opal white glass reflectors are suspended by three steel chains, creating a beautifully layered composition. The soft opal glass allows light to pass gently through the shade, giving the pendant a refined, sculptural presence that feels both futuristic and elegant.

Perfect for dining areas, hallways, long corridors or as a statement feature, the VP Globe Opal Glass Pendant brings a warm, diffused glow to its surroundings. Its transparent globe and delicate internal reflectors provide atmospheric, glare-free illumination. Finished with a white fabric cable and chrome-plated metal canopy, this distinctive pendant is ideal for adding a touch of sophistication to residential and commercial interiors alike.

PRODUCT SPECIFICATION

Light Source: **40**: 1 x Max 60W E14 (Excluded)
50: 1 x Max 60W E27 (Excluded)
