PRODUCT DESCRIPTION

Designer: Luc Rameal

Biluna Pendant Light by Prandina

The Biluna pendant light was designed by Luc Rameal in 2007. The light is characterised by its semi-circular shape, with smooth rounded lines that make it look chic and elegant. A truly timeless design, this pendant is a great fixture to have in your space. The shade is painted on the outside, with the choice of 4 finishes, and has an inner diffuser that inserts into the shade. The diffuser makes the light glare-free and emanates a warm, downward directed glow that is both good for illuminating the room or having light over a table.

The Biluna pendant light is very versatile and can be used in a wide variety of settings. Perfect for kitchens, lounges or dining rooms, the pendant light is useful in home and commercial spaces. You can mix and match colours to create a lovely cluster or series, you can buy one to have as a feature light. Pair with the [Biluna Floor Lamp](#) to create a consistent lighting scheme.
