LIGHTING STORIES

Biluna Pendant Light by Prandina

The Biluna pendant light was designed by Luc Ramael in 2007. The light is characterised by its semi-circular shape, with smooth rounded lines that make it look chic and elegant. A truly timeless design, this pendant is a great fixture to have in your space. The shade is painted on the outside, with the choice of 4 finishes, and has an inner diffuser that inserts into the shade. The diffuser makes the light glare-free and emanates a warm, downward directed glow that is both good for illuminating the room or having light over a table.

The Biluna pendant light is very versatile and can be used in a wide variety of settings. Perfect for kitchens, lounges or dining rooms, the pendant light is useful in home and commercial spaces. The light comes in two sizes, the smaller S5 and the bigger S7 so you can find the right fit. You can mix and match colours and sizes to create a lovely cluster or series, you can buy one to have as a feature light. Pair with the [Biluna Floor Lamp](#) to create a consistent lighting scheme.

Designer: Luc Ramael
