PRODUCT DESCRIPTION

Designer: Jordi Vilardell

Match LED Suspension Light by Vibia

This fitting is customisable, please contact us.

A truly unique and innovative suspension, the Match light, by designers Jordi Vilardell and Meritxell Vidal, features a slimline design and a sleek look that is completely customisable. The Match suspension is made up of multiple metal rods which can drop down at different angles and lengths from the ceiling. These rods hold a small spotlight which is equipped with an integrated LED light source.

The Match is made to be an interactive design between user and brand, as the user can choose length, configuration and final look of the suspension light to suit their interior and needs. The suspension lamp is available in either a graphite or white finish and provides a downward directed light.

Please visit Vibia's online configurator to customise your personalised light and contact us for prices, information and more help.
