PRODUCT DESCRIPTION

Designer: Arik Levy

Vibia Rhythm Horizontal LED Suspension

Designed by Arik Levy, the Vibia Rhythm Horizontal LED Suspension is a creative addition to any space, aiming to reconnect you with your inner child through unique installations that recreate the excitement of playing with modular toys. Rhythm consists of a straight axis that is suspended from the ceiling and has a range of 'sticks of light' that protrude from it. Each of these elements can be adjusted to create unique installations. Depending on your chosen layout, the Vibia Rhythm creates the illusion of movement and is guaranteed to become a talking point in your space.

The Vibia Rhythm Horizontal LED Suspension is available in a matt lacquered white or matt lacquered brown (2110, 2111, 2112) or a wooden finish (2155). It can adapt to almost any contemporary interior and can be displayed individually or in larger groups. Suspend the Vibia Rhythm above dining spaces, kitchen counters or commercial spaces such as waiting rooms, offices restaurants or cafes.
