PRODUCT DESCRIPTION

Designer: Arik Levy

Vibia Rhythm Vertical LED Suspension

The Vibia Rhythm Vertical LED Suspension was designed by Arik Levy and allows infinite configurations. Rhythm aims to connect you with your inner child, recreating the excitement of playing with modular toys and adding a touch of creativity to any room you decide to display it in. When suspended, Rhythm creates the illusion of movement, which can be controlled and enhanced depending on how you decide to display the sticks of light that protrude from the axis. Each of these 'light sticks' features an integrated LED strip which produces a functional uplight.

The Vertical Rhythm Suspension by Vibia can be categorised by its zen minimalism; available in either a sleek white or brown finish (2141, 2142, 2143), as well as a more natural wood finish (2165, 2167) that was introduced in 2024. Rhythm grants you full control over its configuration, allowing for numerous unique installations. Display it individually or in clusters in larger spaces such as atriums and staircases.

PRODUCT SPECIFICATION

Light Source:
2141: 20 x 2.9W, 2700K, 8664 Lumens
2142: 30 x 2.9W, 2700K, 12996 Lumens
