## PRODUCT DESCRIPTION

**Designer:** Centrelight

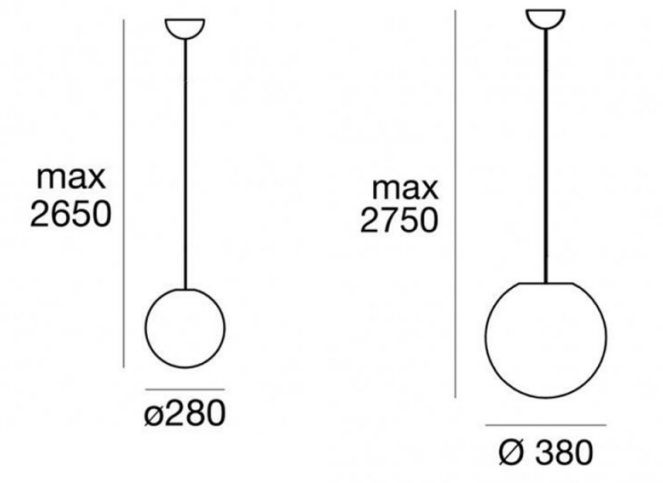

### Centrelight LLDPE Globe Pendant

The Centrelight LLDPE Globe Pendant Light combines a minimalistic silhouette with ambient illumination and a simple colour palette. LLDPE is crafted from low-density polyethene, working as a soft diffuser for the inner light source, which results in an even emission of light and a cosy ambience.

These luminous orbs are highly versatile and can adapt to a range of interiors, including stairwells, hallways, dining rooms and kitchens. Similarly, they are an elegant addition to commercial spaces. The Centrelight LLDPE Globe Pendant Light is also available with RGB lighting kits and remote controls, and as an IP65-rated version. Please **contact us** for more information.
