Foscarini Birdie Wall Light

The Foscarini Birdie Wall Light expands the possibility of creating combinations of the various lights from the Foscarini Birdie collection. Owing to the breadth of appeal of its subtle design and to its natural inspiration, the wall light blends in easily with the most disparate settings, assuming various personalities depending on the colour of the diffuser, white or grey.

The beautiful arm of the Birdie wall lamp resembles a branch reaching out from the trunk of a tree. The lampshade has an iconic and classic form with smooth lines making it stylish and alluring. Suitable for use in many settings, it can be used to provide a warm light in dining areas, lounges, corridors or hallways. Match with other lights from the collection to create a consistent lighting scheme throughout your interior whether at home or in a commercial space.
