PRODUCT DESCRIPTION

Designer: Jean Marie Massaud

Foscarini Solar Outdoor Light

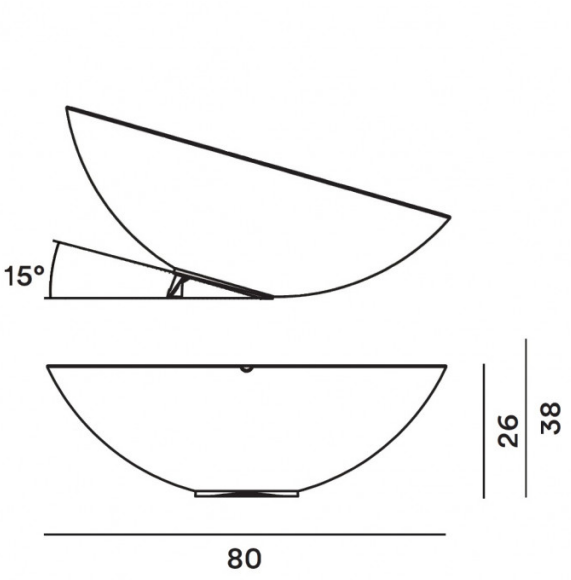

The Solar Outdoor Light by Foscarini is an innovative and contemporary lamp that is the perfect solution for your outdoor space. Designed by Jean Marie Massaud, the light has a hemispherical shape that sits on a metal base that can tilt the lamp up to 15°. The top is covered with a beautiful brown stoneware shelf that means you can rest things on top, acting as both a table and an outdoor light.

The light source sits in the bottom, concealed by the lovely white diffuser, which creates a warm, steady and effective light that will illuminate the space very well. The Solar outdoor lamp is suitable for many exteriors, such as gardens, patios, terraces and balconies. The versatility and multi-purpose functions of this outdoor lamp make it not one to miss and the chic and stylish design will add a wonderful touch to your setting.

Please Note: The Foscarini Solar Outdoor Light has an IP44 rating when installed as plugin and an IP65 rating when hardwired/ installed via junction box.
