PRODUCT DESCRIPTION

Light Attack GYP-1 Plaster-in LED Wall Light

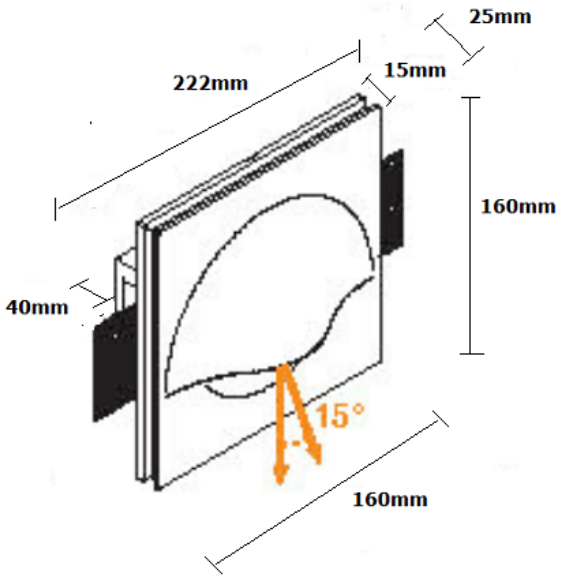

The Light Attack GYP-1 Plaster-In Semi-Recessed Light emits a gentle downlight, generating a pool of light on the floor below. This minimalistic lighting solution is ideal for low-level corridor lighting and blends seamlessly into the installation wall, ensuring it can easily adapt to almost any interior style.

A mould is available for installation into brick or concrete. Please contact us for more information.

Please Note: The Light Attack Gyp-1 Plaster-In Wall Light requires a 350ma remote driver that will need to be ordered separately. Up to 28 lights can be powered using one driver. Please contact us for further information.
