PRODUCT DESCRIPTION

Designer: Emmanuel Babled

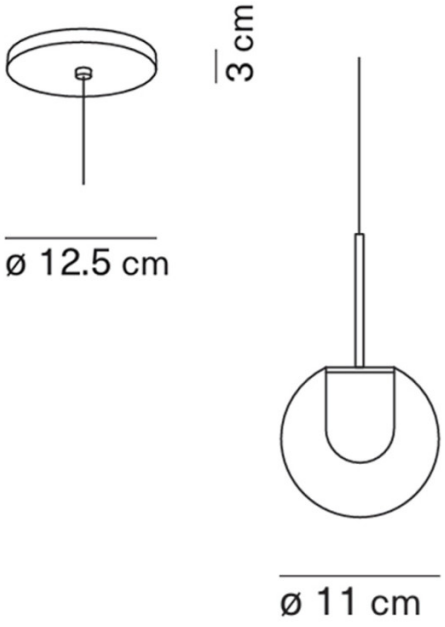

KDLN Dew 1 LED Pendant

The KDLN Dew 1 Pendant is a highly decorative light that suspends like a droplet in mid-air. Designer Emmanuel Babled is renowned for seamlessly blending traditional techniques with modern Italian design, utilising high-quality materials in all his products. This approach is beautifully reflected in the Dew, which brings together blown spherical glass with metal, available in chrome, black, or brass.

The Dew 1 Pendant's ornamental design adds an elegant, decorative touch to interiors, even when not in use. When illuminated, the Dew produces an ambient, glare-free glow that complements the pendant’s delicate aesthetic while filling the surrounding space with an intimate ambience. The Dew offers complete compositional freedom and allows tailor-made installations of almost any scale. From cascading chandeliers to delicate strings of light, each configuration brings a dreamlike quality to the interior and can be customised to suit the specific requirements of each interior.
