PRODUCT DESCRIPTION

Designer: Héctor Serrano

a-emotional light V Pendant Light

The V Pendant by a-emotional light was designed by Hector Serrano. Hector's designs focus on character as well as timelessness and attention to detail, which can be seen in the geometric form of the V Floor Lamp. The metallic slats of the shade are handmade using cutting-edge technology of plastic-injected polycarbonate. This creates a durable yet strong material that is easy to maintain. To clean, simply wipe with a damp cloth.

The unique caged silhouette encapsulates the light source, creating a play of light and shadows when illuminated. Also in the collection is **The V Floor Lamp**, which can be displayed together with The V Pendant to create a striking display in your home. The bright light produced by this pendant makes it perfect for hanging over tables in the dining room, office, or over a kitchen island. This pendant can be displayed on its own or in multiples to create larger displays in commercial settings.
