PRODUCT DESCRIPTION

Designer: Héctor Serrano

a-emotional light V Floor Lamp

The V Floor Lamp was designed by Hector Serrano for a-emotional light. Hector's work focuses primarily on creating innovative pieces that have character while maintaining timelessness and attention to detail. The shade is made using metallic slats that create a complex-looking, geometric pattern. These slats are handmade using cutting-edge technology of plastic injected polycarbonate which creates a material that is delicate to the eye yet durable and strong. Standing on three legs that join in the centre, the V Floor Lamp has a strong personality, making the impossible seem possible.

The light source is partially concealed by the slats of the shade, which illuminates some parts of the shade while casting others into shadow. The top of the shade is exposed, allowing for light to escape, filling the room with light. The unique spatial shape of The V Floor Lamp will add a touch of the extraordinary to any dining room, kitchen, or bedroom. Display on its own or pair with [The V Pendant](#) to create an eye-catching, modern display in your home.

PRODUCT SPECIFICATION

Light Source: 1 x Max 12W E27 LED (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø80cm
Shade Height: 29cm
Height: 173cm
