PRODUCT DESCRIPTION

Arturo Alvarez Tina Floor Lamp

The Tina floor lamp by Arturo Alvarez is created using polypropylene strips which can be cut to customise the floor lamp to personal preferences. These strips, often referred to as 'hairs', create a diffused and soft light characterised by lightness and movement. The light source is completely hidden, meaning the Tina floor lamp has an enigmatic quality of the unknown.

Arturo Alvarez is well known for experimenting with different materials and the Tina floor lamp is a remarkable result of this. With three stainless steel legs supporting an almost sprouting shade, the Tina floor lamp has a feeling of voluminosity and self expression. The Tina collection also includes a pendant, available in two sizes to choose from.

PRODUCT SPECIFICATION

Light Source: 1 x max 12W E27 LED (excluded)

Dimensions: Ø 80 cm diffuser
70 cm diffuser height
160 cm overall height
