PRODUCT DESCRIPTION

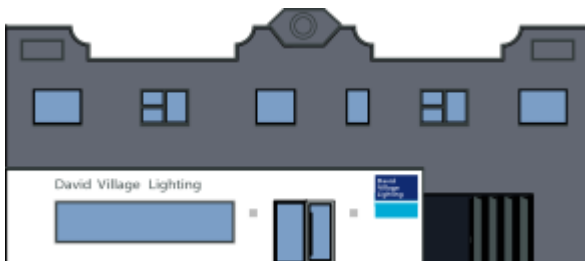

Arturo Alvarez Shio Pendant Light

The Shio collection includes a pendant light available in two sizes. The plywood was an excellent choice as a resilient material but it also adds a natural touch. Small strips of wood are carefully placed next to each and give the Shio its circular shape. The small openings between the strips allow the light to escape and illuminate the room as well as bring out the beautiful details of the pendant.

You can choose between a small or large shade and the wood can be combined with details in white, yellow or wengue. The Shio pendant emits a warm downwards light and the simplistic and wooden details make a versatile light for every room.
