PRODUCT DESCRIPTION

Designer: Arturo Alvarez

a-emotional light Coral Compo

The Coral Combo Pendant is designed by renowned designer Arturo Alvarez. Alvarez often references nature in his work while exploring simple, geometric forms - something which is reflected in the aesthetic of this collection. Each pendant is handmade using SIMETECH®, a stainless steel and silicone mesh. SIMETCH® allows normally resistant steel to become malleable, so it can be folded, moulded, and cut into durable shapes that look organic.

With a choice of either small (3 pendants), medium (5 pendants), or large (10 pendants), this collection will seamlessly fit into a range of spaces. With their different shapes and elegant lines, these pendants are ideal for illuminating any room. The Coral Compo is part of **The Coral Collection,** where each pendant can be purchased individually.

Also available in beige, grey, and taupe or as an LED version. Please contact us for further information.
