PRODUCT DESCRIPTION

Designer: Issey Miyake & Reality Lab

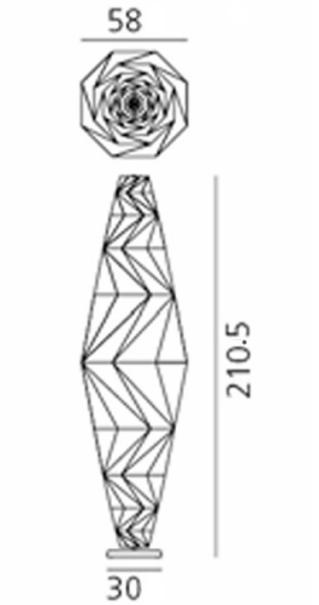

Artemide Minomushi Floor Lamp

Created by Issey Miyake and Reality Lab, the Minomushi Floor Lamp is part of the innovative “IN-EL” Collection. Meaning ‘shadow, shadiness, nuance’ in Japanese, the IN-EL Collection was born from the combination of creativity and mathematics. Through calculated pleating seen throughout the shade, the Minomushi Floor Lamp boasts a solid, statuesque form, despite its delicate appearance. This folded structure is made from recycled material, can keep its shape without the need for an internal frame, and can be folded flat when not in use.

The Minomushi Floor Lamp adds a striking, sculptural presence to any room. When switched on, the folded lampshade creates a play of light and shadows, where light and shade alternate harmoniously. This diffused lighting adds a cosy and welcoming ambience to the room, perfect for dining rooms and living spaces. In commercial spaces, the elegant appearance of the Minomushi Floor Lamp suits high-end boutiques and hospitality settings.
