PRODUCT DESCRIPTION

Designer: Ramos & Bassols

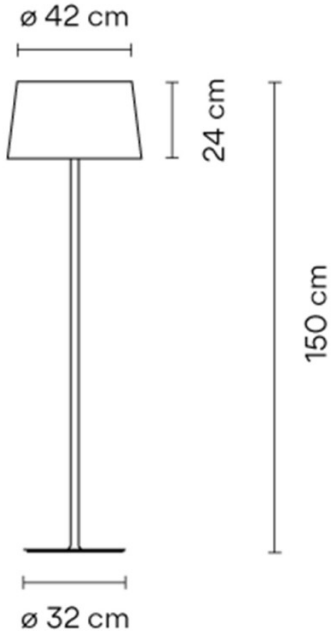

Vibia Warm Floor Lamp

The Vibia Warm Floor Lamp is an unobtrusive and ambient lighting solution for a variety of spaces. Designed by Ramos & Bassols this floor lamp features a timeless silhouette and utilises the classic drum shade which is fitted with a methacrylate diffuser. The diffuser results in a cosy illumination which is projected both upwards and downwards to result in a more even dispersion of light. Vibia Warm projects not only a relaxing light but also an air of elegance, it is a versatile and decorative lighting solution that can blend into a range of interiors.

The Vibia Warm Floor Lamp is available in four neutral finishes (Beige, White, Brown and Green) offering options for varying personal styles and allowing you to even mix and match colours. The Warm Floor Lamp is a great addition to living spaces, dining rooms, hallways, hotel lobbies, libraries and even cafes or restaurants.
