PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Plaff-on! Ceiling Light

Named after the Spanish word for "ceiling", Marset's Plaff-on light was intended to be a simple, no-frills design whose beauty lies in its simplicity and purity.

Plaff-on's design consists of a central light source which is diffused through an opal glass shade and surrounded by an aluminium ring. Thus creating multiple unique lighting effects, functional downlight which is softly diffused as well as a glowing halo created on the ceiling. The aluminium ring is white on the inside which acts as a reflector and creates a new halo that surrounds the shade.

Another sleek and minimal design from Joan Gaspar, ideal for illuminating hallways, living spaces and places with lower ceilings. The Marset Plaff-on is sure to give a beautifully diffused light whilst providing a good amount of illumination for tasks. Plaff-on ceiling can be used as a wall and as a ceiling light, while an IP54 rating allows you to install the light in exterior settings as well as indoor spaces, including bathrooms.
