Artemide Onfale Table Lamp

Designed by Luciano Vistosi in the late 1970s, the Artemide Onfale is a true example of glass craftsmanship. A table lamp in three sizes, made of opaline blown glass, with a dome-shaped diffuser and cylindrical body. The Artemide Onfale Table Lamp resembles the silhouette of a mushroom, adding a unique silhouette to your space. Vistosi became known for his experimental designs that challenged any traditional boundaries, and Onfale was one of those pieces.

The Onfale provides a diffused and evenly emitted warm light, creating a beautiful atmosphere. It is available in three sizes: the largest, which stands 44cm high, the medium has a height of 34.5cm, and the smallest in the family is 26cm high. While these table lamps are not dimmable, they do have an in-line on/off switch located on the cable, allowing you to easily control the illumination. The smallest Artemide Onfale takes one lamp, and the other two Onfale lamps accommodate two.
