PRODUCT DESCRIPTION

Designer: ModoLuce R&D

ModoLuce Cilindro Suspension Light

The ModoLuce Cilindro Suspension Light showcases timeless elegance with its cylindrical design and wide range of fabric options. Designed by Modo Luce R&D, this pendant light can seamlessly enhance both contemporary and classic interiors. The outer diffuser is available in a variety of high-quality fabrics, including cotton, velvet, washable, pleated, and pleated ribbon, ensuring a perfect match for any aesthetic. For added acoustic comfort, select the velvet fabric option, which absorbs sound and creates a cosy atmosphere.

The light features a lower diffuser in opal plexiglass, which provides a soft, evenly distributed glow, while its steel suspension cables add a sleek, modern touch. The Cilindro is available in multiple sizes, from compact options for intimate spaces to larger versions that make a statement in expansive areas. Colours include white, ivory, black, and brown, with additional custom options available upon request.

With its blend of aesthetic versatility and functional design, the ModoLuce Cilindro is ideal for residential, hospitality, and commercial settings. For custom colours, or materials, contact our team to create a bespoke lighting solution tailored to your needs.

Please note, Dali dimming is available on request. Please contact us for more details and pricing.
