Santa & Cole Belloch Chair

Santa & Cole asked from Lagranja Design Studio to create a multipurpose chair for their Belloch office in Barcelona. The result was a chair both simple and modern with plastic used for the seat and back paired with beech wood legs. The chair is perfect for indoor settings, but the collection also includes an outdoor chair in white with aluminium legs.

The chairs are stackable, allowing you to easily store them without taking up too much space. The Belloch chair offers superior comfort for either leisure or work settings, for both residential and commercial settings as it does for Santa & Cole's headquarters. The chair is available in five colours, white, light grey, black, green or red and the design won the IIDA (Award of Excellence) award in 2009.
