PRODUCT DESCRIPTION

Designer: Karim Rashid

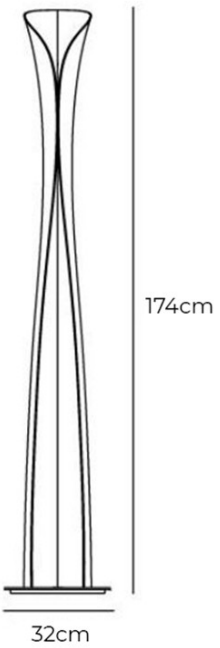

Artemide Cadmo LED Floor Lamp

The Artemide Cadmo Floor Lamp was designed by Karim Rashid, for which he received the Red Dot Award (2010). This lighting solution boasts a steel panel, which screens and emits a soft, direct and indirect light, simultaneously. The diffused light comes from the long vertical opening of the lamp, with the indirect source emitting an upward illumination.

The Cadmo Floor Lamp takes a combination of integrated LED and retrofit LED lamps, with each light source controlled from a double in-line switch on the cable. This switch allows you to independently control the two light sources. The indirect integrated LED source is also dimmable, again controlled from the in-line dimmer, and grants full control of the lighting output. Cadmo's painted steel body in a choice of white or black/white finish and an inox steel base completes its clean and minimalistic aesthetic. As a way to further personalise your luminaire, the Cadmo Floor Lamp also offers the choice between two colour temperatures, either 2700K or 3000K.

PRODUCT SPECIFICATION

Light Source:	1 x Max 10W GU10 LED (Included)
IP Code:	20
Dimming:	In-line dimmer included on the cable.
Dimensions:	Height: 176cm Base: Ø32cm
