Terzani Volver LED Linear Suspension Light
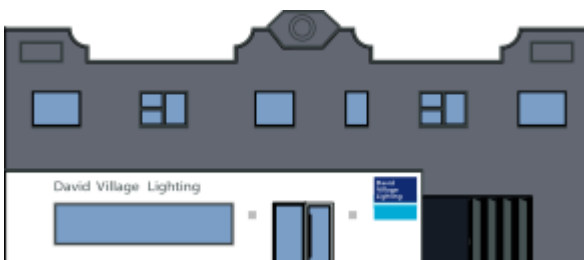

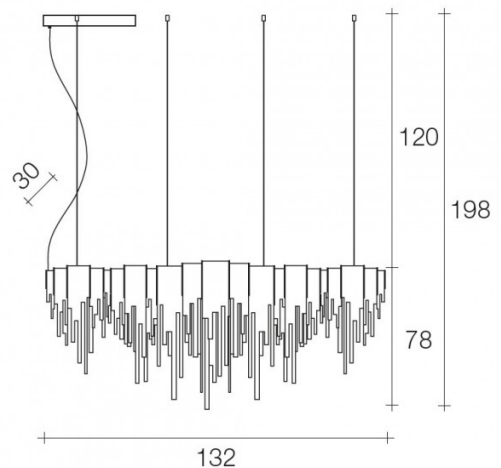

PRODUCT DESCRIPTION

Designer: Studio 14

Terzani Volver Linear Suspension Light

A design by Diego Bassetti and architect Andrea Panzeri of Studio 14, the Terzani Volver was the brands first ever LED suspension light. This geometric design combines thin metal chains with a linear structure to create a luminaire that is both elegant and modern. The Terzani Volver LED Linear Suspension combines technology and art to achieve a new level of luxury.

The LED technology of the Volver is fitted along the inner structure and produces a functional downlight that creates beautiful lighting effects through the chains and can be easily dimmed to suit your needs. It is a beautiful addition above desks, dining tables and kitchen islands in large residential properties. Similarly, it is a highly functional luminaire for commercial interiors such as above reception areas in hotel lobbies.

PRODUCT SPECIFICATION

Light Source:	45W, 3000K, 6617 lumens
IP Code:	20
Dimming:	Dimmable via 0-10V dimming systems. Please consult your electrician, additional wiring may be required on site.
