Foscarini Rituals Pendant Light

An elegant design by Ludovica and Roberto Palomba, the Rituals Pendant focuses on the diffuser and is defined by the volume and material nature of glass. A collection of three diffuser shapes in a hand-blown glass made using a glass-blowing procedure without turning the glass in the mould (referred to as "stationary"); the striped effect is achieved using a mould with negative decorations which are repeated across the surface of the glass, which is subsequently ground manually "by belt" and which then undergoes immersion in acid in order to emphasise the plaster-like effect. Rituals emits a very private, evocative light.

Layer all 3 versions from a central light fitting to create a contemporary waterfall effect, or use them individually around your home for a simple yet elegant touch. The Foscarini Rituals Pendants can be displayed in both residential and commercial settings, and are a beautiful addition to bedrooms, entryways, dining rooms and kitchens. The glass diffuser emits a cosy and inviting illumination that can be personalised through its dimmability.
