### PRODUCT DESCRIPTION

**Designer:** Ionna Vautrin

### Chouchin Mini Pendant Light by Foscarini

The [Foscarini Chouchin collection](#) is broadened with the Chouchin mini pendant version. It includes two models, each with its own colour: orange for the mini 1 version and green for the mini 2. The name Chouchin comes from a traditional Japanese lantern which directly inspires the design of this pendant light. Round in shape in different forms, the lantern is updated by the use of blown glass which is renowned in Italy, and chic colours that are modern and chic.

The lacquered glass shade hides the light completely and therefore the main body spreads light only where it is not coloured, through the white collar. It emits a very warm, gentle glow and a direct, strong, concentrated light. Its shape is perfect for use in multiple configurations, to create linear or vertical compositions. Canopy decentralisation kit - multiple canopy available from Foscarini (up to 9 pendant lights)
