PRODUCT DESCRIPTION

Designer: Alberto Saggia & Valerio Sommella

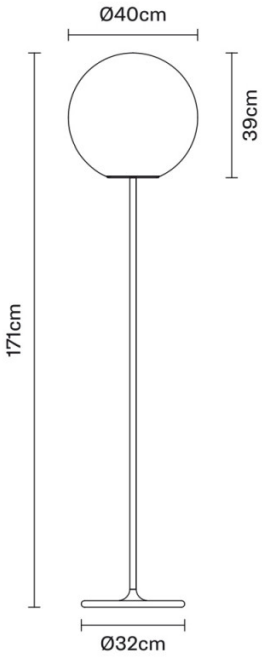

Fabbian Lumi Sfera Floor Lamp

The Fabbian Lumi Sfera Floor Lamp is a sleek and minimalistic way to illuminate your interior. The lighting solution features a satin finish white blown glass diffuser, with a painted metal slender stem and base. Designed by Alberto Saggia & Valerio Sommella, the Lumi Sfera aims to move away from the generic 'bulb-shaped' diffuser whilst adding a touch of elegance to your space. The name stems from the Finnish expression for 'snow' which was inspired by the pure white finish of the floor lamp.

The Lumi Sfera Floor Lamp can be displayed alone, or utilised with other lighting solutions from the collection for a cohesive interior. Thanks to its simple finish and even dispersion of light, this lamp can adapt to a wide array of interiors and can be used in both residential and commercial environments. Display the Sfera Floor Lamp in hallways, entryways, bedrooms, dining rooms, kitchens, hotel lobbies or even in restaurants. Due to the IP40 rating, this lamp can be utilised in bathrooms as long as it is placed a sufficient distance away from any water sources.
