PRODUCT DESCRIPTION

Designer: Alberto Saggia & Valerio Sommella

Fabbian Lumi Sfera Stemmed Table Lamp

The Lumi Sfera Table Lamp was designed by Alberto Saggia & Valerio Sommella for Fabbian, its main feature is the curved opal glass diffuser which sits atop a white lacquered metal structure. The design stems from Saggia and Sommella wanting to create a lighting solution that didn't harness the typical 'bulb shape', the Sfera Stemmed Table Lamp features a beautiful spherical diffuser that emits a pleasant evenly diffused illumination.

This minimalistic table lamp boasts an elegant aesthetic that can be easily integrated into a wide range of contemporary interiors. Fabbian Lumi Sfera is a great addition to bedrooms, living areas, dining spaces and reading nooks. It can also be utilised in commercial spaces such as reception desks, countertops, hotels, restaurants and bars.
