Kartell Taj Mini Table Lamp

More than just a light, the Kartell Taj Mini Table Lamp is a luminous sculpture, a strong presence whether you use it at home or in the office. The design, by Ferruccio Laviani, deviates from the typical articulated and joined stereotype with a single form serving just its purpose, boasting a curved silhouette that adds character to your space. At the same time, the LED technology fully optimises and minimises the light source to its fullest, providing an ambient downlight.

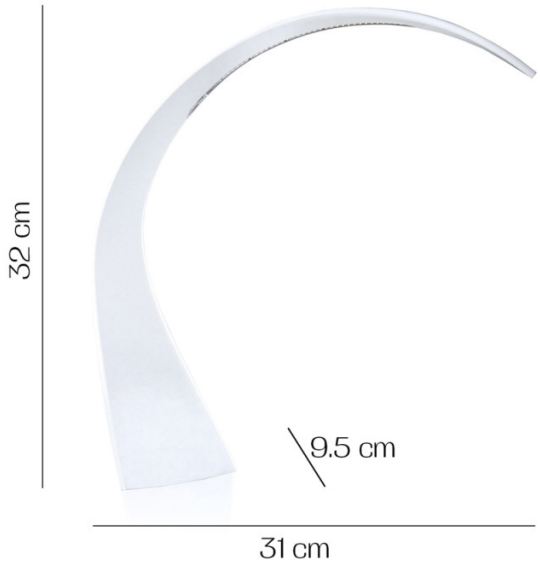

This design is the smaller sibling to the **Taj Table Lamp**, and can be used in numerous spaces, both residential and commercial. The Taj Mini Table Lamp is available in a range of contemporary finishes, offering something for everyone, and makes an excellent addition to bedrooms and offices.
