PRODUCT DESCRIPTION

Designer: Bertjan Pot

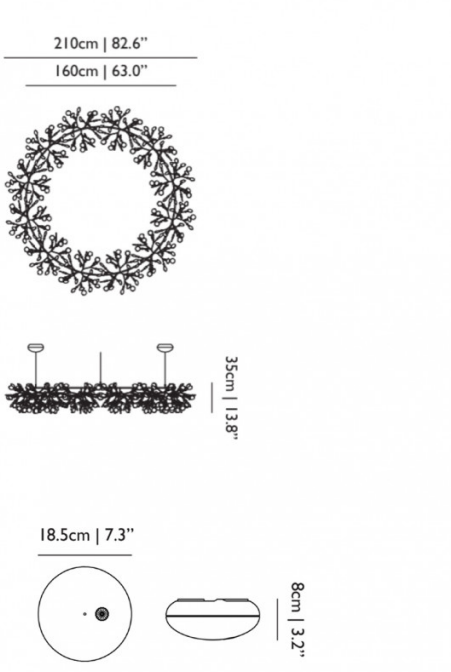

Moooi Heracleum III The Big O LED Suspension

The Moooi Heracleum III Big O Suspension by Bertjan Pot is described by Moooi as a ‘force of nature’. Named after the Heracleum plant that originally inspired the design, the Heracleum displays a halo of blossoming and light. The LED’s leaf-life lenses can be rotated, allowing for the manipulation of the light. Each LED is powered by Electrosandwich®, a technology designed by Marcel Wanders that allows multiple ultra-thin LEDs to be lit at the same time.

When illuminated, the Heracleum III Big O Suspension emits a warm and ambient glow that is as decorative as it is functional. The show-stopping nature of the suspension makes it well-suited for display above a dining table or entrance hall to leave a lasting impression. The organic-looking structure is available in three luxurious finishes: Copper, Nickel, and White. For more compact spaces, a **smaller version** of the Big O suspension is also available.

PRODUCT SPECIFICATION

Light Source:	84W, 2600K, 8427 Lumens
IP Code:	20
Dimming:	Dimmable via Dali or Push to make dimming systems or via the Moooi Wireless Wall Switch (wall switch available to purchase separately upon request). Please consult your electrician, additional wiring may be required on-site.
Dimensions:	Ø210cm Height: 35cm Ceiling Canopy: Ø18.5cm Cable Length: 400cm
