PRODUCT DESCRIPTION

Diesel with Foscarini Glass Drop Chrome

Like a small drop of incandescent glass, Glass drop appears to represent the magical and fleeting nature of this raw material, which is both fluid and solid at the same time, just before it takes shape in an ancient glass-blowing workshop. Its aluminium finishing on the contrary, is unmistakably contemporary, considering it is the high-tech material par excellence.

A textured surface finish that interacts with light, changing colour and appearance according to its intensity. Aerial and precious, even when it is turned off, it can be used alone or in multiple horizontal compositions, suspended over a long table in a home or over the counter of a communal space, or vertically, at different heights, to decorate a large entrance, a stairwell or reception area.

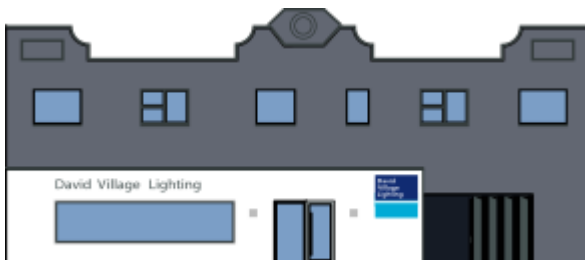

And it's Foscarini again who delivers the technical solution allowing to make a vertical composition of up to 9 lamps: the multiple canopy joins function and design harmony, emphasising the scenic presence of a Glas drop cascade. Chrome finish.

Lamp included.

PRODUCT SPECIFICATION

IP Code: 20

Dimensions: Ø 13 cm
45 cm height
340 cm drop
12 cm ceiling rose
