PRODUCT DESCRIPTION

Designer: Giuseppe Maurizio Scutella

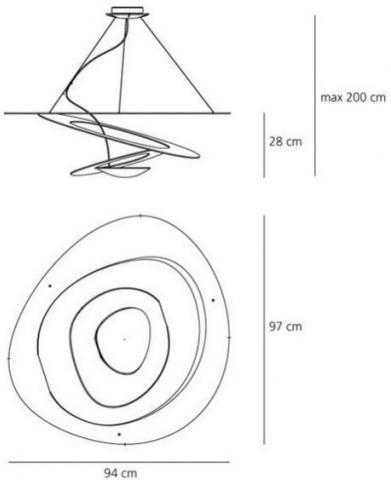

Artemide Pirce LED Suspension

The Pirce Suspension is an elegant light source and alluring decoration, designed by Giuseppe Maurizio Scutellà. The award-winning design is one of Artemide's top sellers and has been reimagined with an integrated LED light source for energy-efficient and eco-friendly lighting. Formed of thin aluminium discs, Price's frame appears to twirl and flow in downward spirals for a captivating display that appears different from every angle it's viewed from.

The Pirce Suspension boasts a contemporary design that complements any modern space, adding a sculptural presence, even when not in use. When switched on, the integrated LED housed in the suspension's lower disc casts light upward into a bright beam. The aluminium discs reflect light into a glare-free illumination that creates a captivating play of light and shadow. Suitable for both residential and commercial spaces, the Pirce Collection is perfect for adding a decorative touch above dining tables, kitchen islands, or hallways.
