PRODUCT DESCRIPTION

Designer: Mathieu Lehanneur

Fabbian Cloudy Pendant

A unique creation by French designer, Mathieu Lehanneur the Fabbian Cloudy LED Pendant is a symbol of optimism and hope. Thanks to the use of extremely complex steel moulds and hand-blown glass, the Cloudy Pendant corresponds to a lightweight cloud, suspended in your interior. The light source resembles a burst of sunshine after a period of rain, with the gradient glass effect seeming similar to that of clearing clouds. Cloudy is suspended from a metallic suspension kit in cast aluminium, adding sophisticated creativity to your space.

This pendant light by Fabbian is available in two sizes and can be used in a variety of residential and commercial settings - including in your kitchen, dining space, living area, restaurants, cafes and hotels. The Fabbian Cloud creates a functional illumination that also presents playful lighting effects due to the two-tone effect of the glass. Each Cloudy diffuser is hand made which makes each one unique and adds a fun talking point to the lighting solution.
