PRODUCT DESCRIPTION

Designer: Matali Crasset

Fabbian Stick Wall Light

A minimalistic and modern lighting solution, the Fabbian Stick Wall Light is highly adaptable. Designed by Matali Crasset, Stick Wall Light features a natural Ayous wood structure with a repetitive geometric pattern that not only diffuses the illumination for a cosy atmosphere but also creates a playful pattern on your wall. Each 'slat' on the Stick Wall Light is designed to resemble a pair of pliers, two bent elements stretched apart by a central support. These Modules made of a flexible material are joined together and "tamed" to surround the light source.

The Fabbian Stick Wall Light is a perfect addition to hallways, entryways, bedrooms and living rooms. It can also be utilised in commercial settings, especially in hotels, restaurants, cafes and bars.
